HAFIZ ARYAN SIREGAR

+6281927690241 | hafizaryansiregar@gmail.com | www.linkedin.com/in/hafizaryan

DKI Jakarta, Indonesia

Information Systems graduate with 1+ years of combined professional and project experience in web development. Experienced in building and maintaining web applications with a strong background in team coordination, public speaking, and cross-functional collaboration.

WORK EXPERIENCE

PT. Pertamina Patra Niaga **South Jakarta, Indonesia**
Web Developer Aug 2025 - Present

- Revamped a legacy enterprise system used by 1000+ users, rebuilding the UI with MudBlazor to improve navigation and reduce user error rate.
- Optimized SQL Server stored procedures, resulting in improved execution efficiency and enhanced database reliability.
- Developed Organizational Alignment (OA) documentation, designed end-user training materials, and defined cross-system integration roadmaps, resulting in stronger access governance, effective user adoption, and well-aligned system integration.
- Contributed to an application assessment with the Universitas Indonesia Computer Center, uncovering security vulnerabilities and inefficient code.

BOOTCAMP AND PROJECT EXPERIENCE

Coding Camp powered by DBS Foundation – Certificate **Remote**
Full Stack Developer Graduate Jan - Jun 2025

- Graduated with Distinction; led a 5-member team to deliver an AI-based food identification application on schedule.
- Completed full stack development curriculum covering Node.js, React, and cloud deployment.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka – Certificate **Remote**
Cloud Computing Graduate Aug 2024 - Jan 2025

- Led a 6-member team to deliver DAISY, an AI-based dermatological app; awarded Top 5 Presenter and Best Presenter.
- Completed curriculum in cloud computing, DevOps, SRE, and applied ML on Google Cloud Platform.

***Sistem Informasi Inventaris Laboratorium* (SITARIS)** – Website **Pekanbaru, Indonesia**
Full Stack Developer Mar - Nov 2023

- Led a 3-member team to develop and implement an equipment tracking and maintenance system, significantly improving asset monitoring efficiency.
- Designed a database to manage hundreds of equipment records, enabling efficient asset search and tracking, and deployed and hosted the system on the university's official server under the domain uin-suska.ac.id.

EDUCATION

Universitas Islam Negeri Sultan Syarif Kasim Riau **Pekanbaru, Indonesia**
Bachelor of Computer Science (Information Systems) GPA: 3.86/4.00 Jul 2021 - Mar 2025

- Thesis: *Pengembangan Sistem Informasi Manajemen Laboratorium Menggunakan Metode Agile Development*.
  (Designed and implemented system features for laboratory scheduling, inventory, and reporting)

ORGANIZATION EXPERIENCE

Google Developer Student Clubs **Pekanbaru, Indonesia**
Staff of Developer and Speaker Division Oct 2023 - Oct 2024

- Contributed to an official Google supported community that promotes learning, collaboration, and the development of innovative projects using Google technologies.
- Developed and coordinated the learning curriculum throughout the program an organized over 5 events focused on machine learning, mobile app development, cloud computing, and web development.

SKILL
